Exploring the pathways of innate immunity

Suki Lee, principal investigator at HKU-Pasteur Research Pole, and her colleagues at HKU School of Biomedical Sciences and Chinese Academy of Sciences have recently revealed a novel nucleotide sensing receptor and provides new mechanistic insight explaining its role in regulating IFN response in an article for Frontiers in Immunology. [...]

Tami Zhang, Postdoctoral fellow at HKU-Pasteur Research Pole

Postdoctoral Fellow at HKU-Pasteur, Tami Zhang travelled to the Institut Pasteur in Paris from February 2016 to June 2017.

Why did you go to Paris?
I was very lucky. When I was working at HKU-Pasteur Research Pole, my supervisor Dr Sumana Sanyal got a grant to foster her collaboration with a researcher at the Institut Pasteur in Paris. [...]

Registrations for the Institut Pasteur International Course on Antibiotics and Resistance (ICARe) are open

The emergence and spread of bacteria resistant to many drug classes seriously threaten all branches of modern medicine. There is currently no course providing advanced instruction on antibiotics and resistance. The specific goal of ICARe is to bring leaders in academics and industry together with trained scientists [...] Read more
